7600

Flashlight

Delivering over 1,000 lumens of output and 37+ hours of run time, the 7600 USB-C Tactical Flashlight combines field-ready durability with USB-C recharging for fast and convenient power recovery. When power sources are out of reach, compatibility with disposable CR123 batteries ensures your 7600 stays ready for use. As conditions change, integrated red and green LEDs provide added versatility for night vision preservation, navigating low-light environments, and supporting traffic control applications when paired with an optional slip-on wand accessory. A tactical rear switch provides immediate access to multiple light modes, while the IPX8-rated, Type III hard-anodized construction ensures your light performs in the moments it's needed most.

- USB-C rechargeable Lithium-Ion Battery
- 3 LED color modes in white, red, and green
- Up to 37.5 hours of run time
- IPX8-rated, submersible
- Selectable light modes between High, Medium, Low, and Strobe
- Type III hard-anodized finish
- Lifetime guarantee of excellence

SPECS

SIZES

Length	6.19" (15.7 cm)

LIGHT SPECIFICATIONS

Lamp Type	LED

POWER

Batteries Included	yes
Battery Level Indicator	RGB LED
Battery Quantity	1
Battery Size	18650
Battery Type	Lithium-Ion
Charge Time	5 hrs
Rechargeable	yes
Volts	3.7 v

SWITCH & MODES

Light Modes	High / Strobe / Medium / Low
Switch Type	Push Button

WEIGHT

Weight No Batteries	5.4 oz (153.09 g)
Weight With Batteries	6.9 oz (195.61 g)

MATERIALS

Body Material	Aluminum with Type III Anodized
Clip Material	High Carbon Steel
Contact Spring Retainer Material	Stainless Steel / Phosphore Bronze / Brass Nickel Plate
Lens Material	AR Coated Glass
O Ring Material	NBR
